Subject: FW: Overseas Shirley / Bunkers / Dpletion of LSMGO Quantity

Importance: High

Good day Gents,

Please be advised that as of 1024 LT/01 June 2016, the remaining quantity of LSMGO onboard is 59.75 MT

The LSMGO consumption rate for in-progress cargo discharging operations is 2.57 MT/hour which was computed from 2006 LT/31 May 2016 to 1024 LT / 01 June 2016.

It is estimated that cargo discharging operations will require 18.6 hours more to complete.

The estimated LSMGO quantity to be consumed until completion of cargo discharging operations is 47.80 MT

The estimated quantity to be consumed for expected suspension of cargo operations for 9.0 hours; as advised by terminal, is 3.50 MT

The estimated total LSMGO quantity remaining onboard at completion of cargo discharging operations is at 8.45 MT

Note: NOTE: We will not have sufficient LSMDO to reach Bolivar Roads and comply with NA ECA. Please arrange for a dispensation letter to US authorities.

Hope to have informed you accordingly.

Best Regards,
Capt. Henry Walter P. Rayos
C/E Dennis C. Mendoza, Jr.
